

Overview

Constant pressure thermoplastic hose for medium pressure lateral sewer cleaning applications up to 175 bar.

Characteristics

Hose suitable for lateral cleaning applications requiring medium high pressure performance and high flexibility for cleaning the smaller sewer pipes.

Features

Abrasion resistant - Compact - Lightweight and extremely flexible - Kink resistant - Polyester braid design - Black cover resistant to humid working conditions to increase lifetime

Temperature range

-40 °C to 60 °C (-40 °F to 140 °F)

Technical Specifications

Internal Diameter	3/16"	1/4"
Outer Diameter	8,5 mm	10.60 mm
Working Pressure	175 bar	175 bar
Bursting Pressure	440 bar	440 bar
Bending Radius	25 mm	40 mm
Weight	45 g/m	65 g/m
