

Overview

This nozzle is an extra robust cutter of the newest generation with reinforced chains to efficiently handle deposits and incrustation of all kind in pipes and sewer, such as lime, concrete, extensive root growth, etc ... It is the optimum cutter for pumps of medium to high performance , also suitable for vehicles with water recycling system.

Characteristics

Nozzle as to be set with guide and chains set on the base of pipe size.

Standard configuration allows the nozzle to be used up to DN 400. Additional equipment allows the SUV 4000 to be used up to DN 1200.

A special pull back support is available, in order to avoid the nozzle get stacked in offset pipes when pulled back.

To be used with rotary swivel.

Items

Part Number	Description
77901.40	SUV4000 CUTTER,DN150-400
77902.40	SUV4000R CUTTER- RECYCLING DN150-400

Additional equipment

Part Number	Description
77901.40-10	ADDITIONAL EQUIPMENT FOR DN 500-600
77901.40-11	ADDITIONAL EQUIPMENT FOR DN 700-800
77901.40-12	ADDITIONAL EQUIPMENT FOR DN 900-1200

Chains

Part Number	Description
77901.40-01	SPARE PART CHAIN (5 MT)
77901.40-02	CHAIN BREAKER

Metal plates

Part Number	Description
77901.40-05	HARD METAL PLATES FOR CONCRETE (PAIR)
77901.40-06	HARD METAL PLATES FOR INCRUSTATIONS (PAIR)

Others particular

Part Number	Description
77901.40-03	PULL BACK SUPPORT
