

Overview

Designed with extended life durability, the Warthog X is the industry's most powerful puller/descaler nozzle for DN75 - DN200 pipes. The Warthog X is compact in size and features a combination of fixed and low-angle rear rotary jets to optimize pulling and cutting/descaling power, meaning you can tackle your entire job with one nozzle.

Characteristics

Features:

- Adjustable jet sizes can focus the flow on pulling or towards descaling and cutting
- Premium carbide components extend life durability
- Viscous fluid ports simplify field maintenance
- Unique shape and design to easily maneuver long radius elbows

Technical Specifications

Inlet:	3/8" NPT	1/2" NPT
Working DN:	DN75 - DN200	DN75 - DN200
Pressure range:	85 - 345 bar	85 - 345 bar
Flow range:	30 - 80 lit/min	34 - 57 lit/min
Service interval:	250 hr	250 hr
Weight:	0,54 kg	0,54 kg
Size:	48 x 86 mm	48 x 86 mm
